ACHA Health offers two modes for completion of the Graduate Nurse Program, a General Program and a Specialist Program.

The General Program is a two-part program, with 6-month rotations in two areas. It offers the opportunity to develop skills in general Medical, Surgical and Cardiac areas.

Graduates undertaking the Specialist Program will spend the full year in the Specialist Area of their choice. It is a unique opportunity for graduates to work in areas such as Peri-operative and Intensive Care, giving the graduate exposure to another side of the nursing profession.

We offer flexibility with our programs, any special requests can be discussed at interview.

Please start by indicating the hospital site you would prefer, by placing number 1-3 in the boxes below

- Ashford Hospital**, Ashford
- Flinders Private Hospital**, Bedford Park
- The Memorial Hospital**, North Adelaide
